e-Planning Forum / Jornadas e-Planning

14 December 2011

(14h00-19h30)

Location: FLAD – The Luso-American Development Foundation

Rua do Sacramento à Lapa, 21, Lisboa

The purpose of this Forum is to promote the dialogue between researchers with ongoing projects in e-Planning (e.g. e-citizenship, e-governance, e-government, e-city and e-territory, e-infrastructures), and the communities / institutions that host them.

Inspired by MIT´s Media Lab motto – "Publish or Perish", but also "Demo or Die" –, the e-Planning Forum intends to go beyond the traditional model of communication, creating both a space and an opportunity to see and reflect the potential of tools, systems and approaches that we call "e-planning". This will be the place and the time for communities and institutions to discuss with researchers their needs and their views on projects and approaches that are still under development.

Program

Part I: Posters and Demonstrations

13h45 - 14h00

- Registration

14h00 - 15h00
