[Bernardo Ivo Cruz](#), Deputy Minister for Internationalization, Ministry of Foreign Affairs

More about FLAD Forum Portugal and USA Higher Education

FLAD Forum Presentation and Objectives

FLAD's Forum on the internationalization of Portuguese Higher Education Institutions (HEIs) will take place over 1.5 days at FLAD's Auditorium, on October 24-25, 2022.

The Forum's primary objective is aligned with the mission of the larger project of which it is part- [USA-Portugal Campus](#). Together and with the assistance of a diverse array of institutional partners in both countries, our project has created a strategy for bringing the USA and Portugal closer together in terms of academic mobility, giving greater visibility to Portugal in the USA as a destination for US-based students.

Simultaneously, our goal is to reinforce and expand on the community know-how of administrative staff working on internationalization at all levels of Portugal's higher education institutions (HEIs) in what concerns their ability to access the US study abroad market—which we hope will lead to more intentional mobility opportunities between Portugal and the USA for students, staff, and/or faculty.

The Forum seeks to bring both US and European speakers together to focus on key issues and successful case studies that have not been fully addressed by the ongoing USA-Portugal Campus webinar training series. The speakers' profile and experience will shed light on the "state of the art" for each particular issue area covered in the panels – be it a case from the Portuguese, European or US systems of higher education.
