

## 1. Institution Overview

### Iscte - Instituto Universitário de Lisboa

The ISCTE - University Institute of Lisbon was founded in 1972 as one of Portugal's first modern universities, with the central aim of studying labour and social dynamics in a rapidly changing world. Since its establishment, the university has expanded its disciplinary reach into five schools: Iscte Business School, the School of Sociology and Public Policy, the School of Technology and Architecture, the School of Social Sciences and Humanities and the School of Applied Digital Technologies. On campus, students find not only a robust intellectual tradition, with mentorship from teaching staff involved in cutting-edge research, but also a vibrant, multicultural environment. Of the approximately 14 700 students enrolled in undergraduate and postgraduate programs, nearly 20% are international, coming from 90 different countries. Furthermore, the university is actively engaged in collaborative projects, networks and partnerships around the world, including a range of educational, training and research programs supported by the European Union. Through its commitment to internationalization, innovative research and education aligned with professional standards, Iscte prepares its students for competitive careers and thoughtful lives in the 21st century.
