

1. Institution Overview

NOVA IMS - NOVA Information Management School

Somos Data Visionários

NOVA IMS ([Data Visionaries](#)) is the School of Information Management, Artificial Intelligence and Data Science at NOVA University Lisbon, and the only institution in Portugal exclusively dedicated to these fields.

Our academic portfolio comprises 3 bachelor's degrees, 10 master's programmes, 8 executive master's, 23 postgraduate programs, and a PhD. NOVA IMS is an internationally oriented School, with a truly diverse community of 3.840 students, around 30% of whom are international, representing 104 nationalities. All our programmes are taught in English.

Continuous innovation and excellence are central to our identity and internationally recognised. NOVA IMS has been awarded the maximum 5 QS Stars across all nine evaluated categories, including teaching, online learning, programme strength, and entrepreneurship. Additionally, our Master's programme in Business Intelligence and Strategy has been ranked the best in the world by EDUNIVERSAL for the seventh year in a row.

Our research centre, MagIC (Management and Data Science Research Centre), operates at the intersection of management and data science, addressing key societal challenges across areas such as Healthcare, Smart Cities, Sustainability, Marketing, Tourism and Hospitality, and Education. MagIC is rated "Excellent", and nearly one-third of our faculty and researchers are ranked among the top 2% of scientists worldwide.

Through 16 innovation labs, NOVA IMS develops high-impact projects in collaboration with industry, government and public institutions, and civil society. These labs also actively engage students in applied projects, fostering hands-on learning and closer interaction with real-world challenges.

At NOVA IMS, we believe in the power of knowledge to build a better future. We see our students not just as learners, but as visionaries, prepared to lead with integrity, empathy, and insight. This paradigm goes beyond education—it is a movement of thinkers and doers, united by a shared purpose: to improve how we live, work, and understand the world around us.

For a better world. For everyone.

2. Site Visit Information

Information	Details
Date	14/10/2026
